System Furniture

AO2 System

AO2 is a proven performer providing workspace solutions for the practical modern environment. With one of the most simple yet sturdy panel connection designs in the market, AO2 brings together performance with practicality.

A vast selection of panel sizes and designs, along with complimenting components and worksurfaces, allow for unlimited configuration options.

The enhanced power and data capacity of AO2 panel raceway meets the challenge of today's technologically demanding work environments without compromising design and style.

- * Features: Lifetime Warranty
- * Over 125 fabrics, 25 laminates & paint finish options
- * 10 day quick-ship program up to 300 stations
- * Broad selection of component and storage options
- * Lay-in power and data capacity up to 90 cat-5 cables
- * 8-wire 4-circuit raceways

MWall System

M-Wall & Z-Panel systems were designed and built to last. They are a simple, versatile, affordable systems furniture solution. Easy to install M-Wall & Z-Panel have extensive panel and component options to adapt to any workplace.

Z-Panel desk height access to power and communications enables workers to plug in power or data cables with ease while also providing voice and data cable separation. No more clutter of cables below a workstation or having to crawl in the floor to access power or data jacks.

- * Features: Lifetime Warranty
- * Over 125 fabrics, 25 laminates & paint finish options
- * 10 day quick-ship program up to 300 stations
- * Broad selection of component and storage options
- * Lay-in power and data capacity up to 90 cat-5 cables
- * Beltline (above surface) 8-wire 4-circuit raceways

Matrix System

Matrix is a full frame, stackable, tile panel system designed to meet the most challenging as well as the most basic workspace requirements.

Matrix bridges the gap between Aesthetics, Design, Value and Quality. The Matrix system lays to rest the misconception that tile systems should cost more than traditional monolithic panel systems.

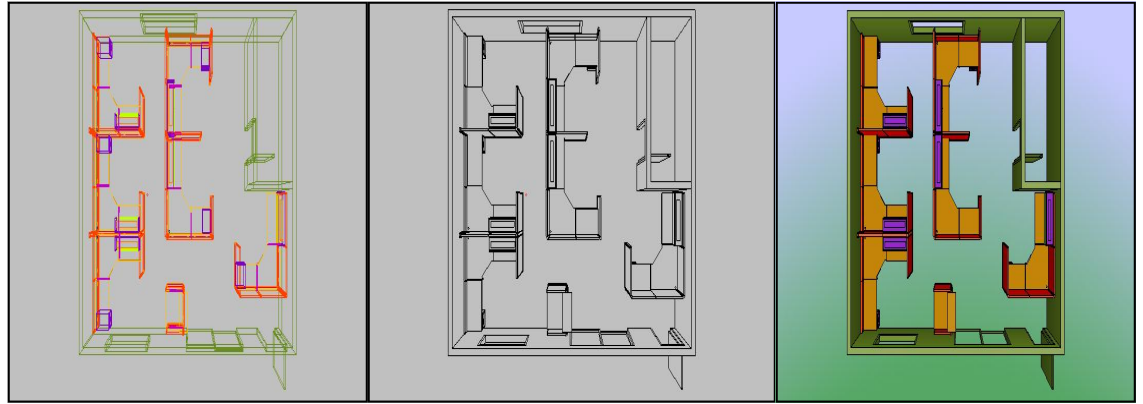

Whether planning for a reception area or conference area, the unique and simple design of Matrix allows workspaces to be created efficiently and with purpose.

- * Features: Lifetime Warranty:
- * Tiles are available from 8" to 82" in eleven different styles
- * 14 Gauge steel frame construction
- * Electrical & Data can be placed in 8" increments throughout the panel
- * 4 Metallic & 5 Grade A Quick Ship paint finishes
- * 30 Grade A Quick Ship laminates
- * 120 Grade A Quick Ship fabrics with a total of 400 (standard lead time)
- * Stack on options up to 130" for a floor to ceiling option
- * Panels available in (6) heights and (6) widths

AxiOS Office Solutions utilizes computer-aided design software to produce efficient & functional workstation layouts. With the cost of leasing premium space you need to make the most out of the square footage you have.

Our software capabilities can give you a complete 3-D rendering on how your office area will look before any furniture is even ordered.

Humanscale Accessories

Polished Aluminum

Flat panel monitors are the future and AxiOS Office Solutions carries the M7 by Humanscale the Gold Winner at NeoCon 2003. With a host of mounting options the M7 can be configured on your existing or new workspace surface.

CPU are an extremely functional tool : by securing your cpu underneath the worksurface you clear up valuable floor and desk space with added security and safety.
